

USC Staff Assembly

Resolution 19/20-07

USC Staff Assembly Remote Vote SOP Addition

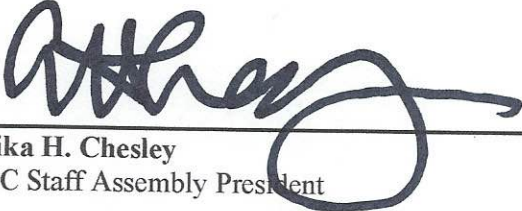

Motion to direct Ad Hoc Committee on Reorganization.

I, Mark F. Malan, move and am seconded by my fellow Ad Hoc Committee members, Renee Almassizadeh, Robert L. Boyd, and Brian Mico, that the Ad Hoc Committee on Reorganization is hereby directed to advance its work on Proposal Number 3 (three), included here as an exhibit, and at a future meeting and time present to the Staff Assembly for vote the structure and process of instituting the transition and needed changes to the Constitution, By Laws, and Standing Operating Procedures for this transformation to occur in the most timely manner possible. This formatted motion for transformation will follow all proper and required pathways in preparation for final vote, including, but not limited to, review and amendment by the Rules and Elections Committee and the Executive Committee.

A YES vote for this motion would tell the Ad Hoc Committee to move forward to complete Proposal 3 and create an actionable motion for review and eventual presentation to the Staff Assembly to change our method of elections to be from more specific units to create a more full representation from across all USC units, divisions, etc.

A NO vote for this motion would tell the Ad Hoc Committee to move forward with refining our current system of representation and present to the Staff Assembly such recommendations for potential action after review by the Rules and Elections Committee and the Executive Committee.

X

Erika H. Chesley
USC Staff Assembly President
